# About us

**Ample Coin aims to provide all decentralized finance products in one place. It is a type of all-in-one platform, which offers everything, Like Instant Swap, Farming, Launchpad, Stake And Earn, Dividends.**

# Ecosystem

## 1) Swap

Decentralized exchanges take a different approach to buying and selling digital assets: They operate without an intermediary organization for clearing transactions, relying instead on self-executing smart contracts to facilitate trading. In the absence of intermediaries, DEXs take on a non-custodial framework.

## 2) Farm

Ample Coin Farming is recognized as an automated market maker (AMM) that allows its users to trade using ample coin tokens and hence, provides liquidity. Staking is a process of staking ample coin that involves buying several tokens of any currency and putting them aside while other transactions are happening.

### **3) Pools**

**Pools allow you to provide liquidity by adding your tokens to liquidity pools or "LPs" Token**  
**The number of LP tokens you receive represents your portion of the AMP-BNB liquidity pool. You can also redeem your funds at any time by removing your liquidity.**

### **4) Dividends**

**The Ample Coin Dapp is a totally decentralized BNB Staking Dapp. Holders of AMP tokens are rewarded in BNB Dividends whenever the tokens are used. This is an eternally sustainable method of earning dividends based on actual usage of the tokens. Ample Coin dapp will provide dividends for long as the BNB Blockchain exists, That's Contract technologies are made in a way that they can never be shutdown or switched off.**

## **5) NFT Marketplace**

**AMP NFT market place - The future of trading and collecting**

**The new trend that has caught the eye of investors is the nonfungible token (NFT) market. NFTs are digital records of proof that represent all types of creations, including popular memes, famous tweets, master recordings, unique artwork, and even GIFs of NBA's greatest buzzer-beaters.**

## **6) Launchpad**

**Safest launchpad. Multi-chain.**

**Launching hand-picked high-quality projects on the BSC, Solana, ETH Blockchain.**

# About Token

## 1) Ample Pad Native Token

Ample Pad also has its own native token, AMP. The token will be used primarily for staking, Farming & For dividends Those who opt to use it for staking will be able to earn a passive income, as they will receive staking rewards for keeping their coins locked up And Also user can Participate In IDO tiers wise.
